Hi Dave,

I think the idea of group meeting makes a lot of sense. We'll be sure to reply to DWR.  
Thanks for all your help on this.

Taurus

Taurus,

Just to follow up with you on this, EPA, NDEP, and ARC discussed this issue in a conference call yesterday and we are all looking at the materials with the goal of coming up with a recommended plan of action.

It would probably be wise to make sure and send some sort of reply to DWR by the deadline if not a full emergency plan.

For the longer term actions we were thinking a meeting with DWR might be in order where we can explain the Superfund project and see how that fits in with DWR's thinking.

Stay tuned,
